NOVEMBER 2009

Summer must be coming. The Cauliflowers are now in flower. The bees are working well. It's a heart warming time of year.

As in the past, Kiwi Seed has employed some overseas personnel to help with the harvest and any other jobs required in the field. This year we have Etsuko Kanamaru from Japan and Magdalena Pallaschke from Germany.

Both these young women think New Zealand is the nicest place on earth and would like to stay for ever. New Zealand can't be such a bad place after all.

Bruce

Garden Centre

Tasks for November

- Mow lawn regularly but raise the blades a little as the weather gets hotter
- Feed the grass so it can survive the hotter weather
- Watch for slugs and snails
- Hoe and hand-weed as often as possible. Weed control is essential in November
- Mulch to conserve as much water as possible
- Earth up potatoes to protect tubers from light
- Spray fruit trees for fungal and destructive insect pests

Use to deepen and brighten the colour of blue hydrangeas, A treatment of Hydrangea Blue Aluminium Sulphate will also reduce the soil pH around acid loving plants. Recommended for use on Azaleas, Rhododendrons, Camellias, Daphne, Erica and Boronia

Directions for use:

1. Apply 30g (approx 2 table-spoons) per square metre of soil
2. Water in
3. Recommended application is two to three times a year.
