## NEWSLETTER

JUNE 2010

I am quite convinced the human race has not made much progress over the last 200 years. We may think we are smarter with our cell phones, ipods, broadband and aeroplanes but we lose the skill and knowledge of basic living matters. As a country we keep on shooting ourselves in the foot by purchasing large volumes of human and animal feeds from overseas. For Instance, we imported 120000 tonnes of GE Soy Meal. This all ends up in the food chain as a protein for animal feeds. We could be growing peas as our protein source in New Zealand, we have the farm land, we have the genetics, but we don't have the will to do this. Why?

*Bruce*

**Naturally grown Lucerne**  
**Protein - 20 - 22%**  
**Digestibility 70%**  
**ME Value 11.0 - 11.5**  
**Dry Matter 45 - 50%**  
**Contains no additives**  
**Vacuum sealed**

Or

**Come and see us in store**  
**527 Old Renwick Road, BLENHEIM**

**Tasks for June:**

Once the last of the Autumn leaves have been cleared the lawn will not need to be cut as frequently

Carry out any mower repairs and maintenance

Care when sowing out early varieties of some vegetables as wet and cold soil can rot rather than germinate.

Deciduous fruit trees should be pruned in winter only after the fruit buds have formed. A fruit bud is fat and rounded, a leaf bud is thin and pointed

**CHICKEN/PULLET/HEN**

**Kiwi Seed food for the generations**

*Birth to 6 weeks of age*  
**Chick Starter Crumbles 1kg, 10kg, 25kg**
