Autumn is the best time to plant new trees and shrubs including roses, so they can get established over the cooler winter months. Prepare new planting sites now with Daltons Compost.

Remove spent summer flowering annuals and plant your favourite winter flowers. For best results, prepare the soil by digging in Daltons Compost and Daltons Landscape Pellets.

When planting out your spring bulbs, remember to fertilise with Bone Flour for the best blooms in Spring.

Once all fruit trees are harvested, spray pip and stone fruit trees with a Copper spray to protect against leaf curl, leaf blight, leaf spots, downy mildew, black spot and verrucose.

Giving your winter vege patch a rest over winter? Add nutrients back in the soil by sowing a crop of blue lupin, mustard seed or black oats which adds nitrogen and improves soil structure.

Feed citrus trees with Kiwi Seed Citrus Fert to promote strong healthy Autumn growth.

Daltons Landscape Pellets—Everything your garden needs in one bag!

Daltons Landscape Pellets.

A convenient, pelletised form of boosted compost containing 7 sources of natural nutrients enhanced with conventional fertilisers.

- * Increases organic matter in the soil profile
- * Pelletised easy to spread formulation
- * Improves soil cation exchange capacity
- * Improves soil water and nutrient retention
- * Improves soil microbial activity
- * Suitable for all soil types

* Contains Zeolite which acts as a mineral sponge absorbing and releasing nutrients within the soil profile
