NEWSLETTER

Same procedures as every year, are you ready for the last month of the year? With all the things you might still need to do, whether it's to organise a tree, plan the food for the festive days ahead, invite your guests, gifts etc. Take your time and think about at least 1 special person this year you could surprise by sending a traditional Christmas postcard with snail mail. Although the era of traditional handwritten letters is on the decline, the novelty of receiving a personal Christmas card is still cherished by many.

Christmas Trading Hours

CLOSED - MONDAY 24TH DECEMBER 2018 TO WEDNESDAY 26TH DECEMBER 2018

- Fresh cut lucerne and freshly kibbled barley with *Xanotyde®
- A complete feed balanced with the correct proportions of fibre to grain (2:1) for gastric health
- Builds top-line and condition

All available in store now

Out in the garden

Everyone likes to keep cut flowers around as long as possible, and there are several good methods. One way is to mix 2 tablespoons apple cider vinegar and 2 tablespoons sugar with the vase water before adding the flowers. Be sure to change the water (with more vinegar and sugar, of course) every few days to enhance your flowers' longevity.

Lavender is starting to flower in the garden. Learn how to turn it into a beautiful Christmas gift by checking out the link on our Facebook page.

Weeding, feeding, mulching and irrigating are the main garden tasks this time of the year. Lightly prune spelled rose flowers to encourage new blooms.

Re-sow some more lettuces, carrots, beans for a continuous food supply and don't forget to cover your berry fruit to protect them from hungry birds, now that they are starting to ripen.

Problems with aphids, thrips, ants, mites, earwigs, snails and slugs on lettuces and other veggies, try Diatomaceous Earth (DE Bug). This is a food grade mineral based pesticide which does not harm earthworms.

DE can also be used as a feed supplement for livestock and farm animals. Dust it on top of grain in storage and protect your feed from getting infested with Indian meal moth and other weevils.

Bottle and 1 kg bulk bag are available in store.

Fiber Earth Garden Mix Plus

Boosts garden fertility, improves soil structure and moisture retention, helps to control weeds through mulching effect.

Fiber Earth Garden mix plus is free from additives and fertiliser, easy to use anywhere in your garden.
