# November SPECIALS

## NRM Equine Balancer 20kg

Suitable for overweight horses and ponies or those that maintain condition on forage-only diets.

NRM Equine Balancer has been formulated in conjunction with Kentucky Equine Research to provide a scientifically formulated feed to balance the diets of horses. Equine Balancer is a concentrated vitamin and mineral pellet and is suitable for horses that do not require the increased calorie intake provided by supplementary feed, but still require the necessary vitamin and mineral intake for optimum good health.

**\$49.50**

## NRM Multi Feed Nuts 20kg

Suitable for a wide range of animals including beef, cattle, sheep, goats and deer.

NRM Multifeed supports improved condition and productivity in ruminant livestock where nutrient demands are high e.g. pregnancy, lactation, wool growth and liveweight gain.

This versatile product will also assist in sustaining stock during heavy periods of critical feed stress.

**\$28.00**

## NRM Rabbit Pellets 10kg or 20kg

A complete balanced diet for both young growing rabbits and breeding.

Also suitable for pet rabbits.

**\$37.50**

**\$21.50**

*NRM Specials November 2024 only*

# DUNSTAN HORSEFEEDS

*Love your horse*

Buy any bag of Dunstan horsefeed during the month of November and receive a free sample of Dunstan Recovery Mash.

Offer is valid from 1st – 30th November 2024 only while stocks last.

NOVEMBER SPECIAL

zealandia

Pet Nutrition from New Zealand

Buy one tin of Zealandia cat food and receive a second tin FREE.

*Only while stocks last.*

## Tasks for November

November is the last month of spring and the plants in our gardens are all growing fast.

To continue this rapid growth, regular light applications of fertiliser will help. For those organic gardeners regular mulching with well-made compost encourages good growth while others may prefer applying prepared well balanced slow release fertiliser.

Now is the time to ensure your irrigation system is working well for the long hot summer. Applying mulches is a good way to conserve water in the garden.

Plant bedding plants now that the risk of very late frosts has gone and try to get them in by mid November for best results for a Christmas garden. Sulphate of potash (30grams per square metre) helps strengthen the stems and intensifies the colour of the flowers.

Prepare and plant hanging baskets, pots and window boxes for a Christmas display.

Look after the roses this month. Young stems can get damaged in the strong winds. Watch out for Aphids, black spot and rust and spray accordingly.

Prune spring flowering shrubs after they have finished flowering. This will give the plants a long growing season to encourage them to flower next year.

Remove seed heads from rhododendrons and azaleas.

Ensure the garden is well watered. A good soaking is better than just a little each day.

Mow lawns regularly to obtain a nice sward of grass. Regular mowing at the same height each time is the best. Apply some fertiliser to encourage healthy growth.

Strawberries will be throwing out flower trusses this month and fruiting shortly after. Support the fruit on a pad of straw to stop them becoming dirty and to allow them to ripen nicely.

On apple trees watch out for apple woolly aphids. These white fluffy insects can do a lot of damage to the tree and cause swelling of the branches. Start spraying with pesticides to control chewing and sucking insects.

If your trees are relatively free of pests and diseases, hold off on the sprays.

*Maxicrop – the original seaweed bio-stimulant.*

*The secret's in the seaweed son!*

Maxicrop, the original bio-stimulant is globally recognised with peer reviewed research.

It contains special amino acids and organic compounds that have been proven to increase root development, disease resistance and soil microbial activity.

Studies measuring chlorophyll production showed increases as high as 300% in treated plants.

## Have you tried our Spelt Husk?

Husk can be used in a variety of ways, e.g. for bedding (small animals like rabbits or guinea pigs), in the chicken coop or as garden mulch.

Spelt pillows are lightweight, breathable and retain heat well.

Husks are free flowing and adapt perfectly to the shape of the body.

Christmas is coming up very soon, why not treat your dog with a homemade spelt husk bed this year?

Take a clean jute sack (available at Kiwi Seed) and fill with husk to volume required, sow up the top. Job done.

We would like to do our bit for the environment by sending out our accounts and newsletters via email.

Please subscribe by emailing us at [info@kiwiseed.co.nz](mailto:info@kiwiseed.co.nz).

You can also use the same address to unsubscribe from the newsletter if you wish.

**Thank you from all at Kiwi Seed.**
