

Spring into September in the chook yard

When spring kicks in, chooks are in egg laying overdrive and “the green spring cleaning season” arrives.

It is cleaning time in the chook yard. Pick a sunny day, remove the litter from the chook coop and wash the coop out.

Let it dry out and then sanitize it using Smite spray, diatomaceous earth etc.

Deworm the chooks and treat them against mites and lice.

Prevention is always better than cure!

What to feed and when:

Chick crumble:

birth to 6 weeks of age

Pullet grow meal or Pellets

6 weeks to 20 weeks

Layers Meal

20 weeks onward

Layers Pellets

20 weeks onward

Layers Pellets Extra

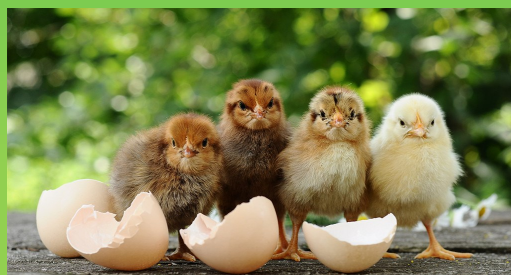

(Layers Pellets, grit, wheat, corn and peas)

20 weeks onward

Game bird crumble

designed for

Broilers, turkeys, ducks and gamebirds

NRM Lamb Start Mix with Deccox® 6% is a high quality, nutritious textured starter feed formulated to allow young lambs to achieve their full potential. \$20.50

Neem Granules

Neem Tree Granules have been used as a natural insecticide for thousands of years. This is a natural and organic product that prevents and kills nasty insects in the garden. If used at 4-6 weekly intervals you will very rarely need to use any other sprays. Good for all soils, all crops, and all seasons. It works primarily by increasing the humus content of the soil. It is an all-purpose organic soil conditioner, ideal for low organic matter soils.

Apply 50-100g per square metre. Where possible, work the granules into the top 10cm of soil, or apply onto soil surface before sowing or laying turf.

Broad beans, garlic, yams and large variety of seed potatoes for planting - instore.

Cool fibre for horses and ponies

Original (100 % Soy hulls)

Soy hulls are recognised as one of the best sources of fibre in equine nutrition. The high digestible energy content of soy hulls provides an ideal feed for horses that struggle to maintain weight and need to maintain condition.

Extra (90% soy and 10 % NZ grown flax seed flake)

Excellent supplement for muscular development and digestive health. Contains Omega 3,6 & 9 essential fatty acids a quality source of vitamins and minerals to ensure health.

Both Soy hulls and flax seed flake are low in sugar and starch which is considered safe to feed to horses with laminitis.
